

### Amendments to the Drawings

Amend the last figure to include the following corrections as indicated on the complete set of formal drawings submitted herewith.

In FIGS. 11-13, reference numeral "34" has been changed to "36". In FIGS. 22, 23, tongue "142" has been changed to tongue "143". The last figure is designated as FIG. 31. In FIG. 31, a new reference numeral 172 has been added to distinguish between the convex silicon layer 170 of FIG. 30 and the planarized silicon layer 172 of FIG. 31.

## Remarks

Claims 1-23 remain in the application.

Editorial errors have been corrected in the specification. Duplication of reference numerals has been corrected in FIGS. 11-13, 22, and 23 with corresponding corrections to the text. The last figure is now designated as FIG. 31. Further, it has been amended to distinguish the planarized and unplanarized silicon layers.

One claim has been clarified.

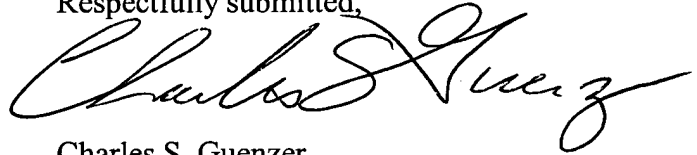

The application has been declared to be informal because of overwriting and a missing figure number. A set of formal drawings submitted herewith corrects those informalities.

A copy of the Notice to File Corrected Application Papers is submitted herewith.

In view of the above amendments and remarks, consideration and allowance of all claims are respectfully requested. If the Examiner believes that a telephone interview would be helpful, he is invited to contact the undersigned attorney at the listed telephone number, which is on California time.
